Domestic Wastewater Services

Republic Services is the leader in treatment and disposal of domestic wastewater from oil and gas sites. Our fixed facilities operating 24/7/365 in the Eagle Ford Shale and Permian Basin.

Backed by unequalled service excellence, Republic Services' dedicated teams have the expertise and experience to ensure that your oil and gas site domestic wastewater is treated efficiently, effectively and responsibly.

Our dedicated, fixed and state-licensed facilities are designed to properly treat large volumes of domestic wastewater that on-site mobile systems or local municipalities simply cannot, and then discharge or reuse processed effluent to a level that meets or exceeds state-provided parameters. More importantly, when you partner with Republic Services, the burden of liability shifts from the operator, housing or transportation company to our TCEQ-licensed facilities.

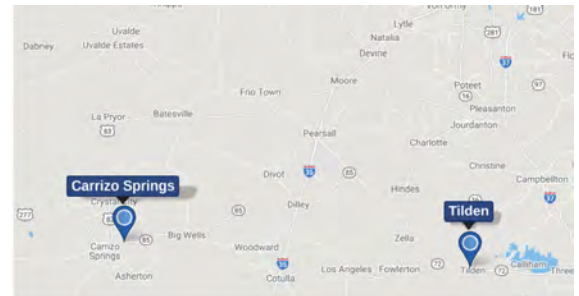

Benefits of Republic Services' Domestic Wastewater Solutions

- ✓ Fixed facilities easily accessible off of major highways for safe and easy turn around
- ✓ Open 24/7/365
- ✓ TCEQ-compliant and fully licensed
- ✓ Single source disposal solution
- ✓ No extra rental, trucking, disposal fees
- ✓ Recycled effluent exceeds TCEQ standards for reuse
- ✓ Cost efficient, safe and away off site treatment on behalf of generator

PERMIAN BASIN LOCATIONS

EAGLE FORD SHALE LOCATIONS

Republic Services' team of professionals and strategically located facilities offer the most efficient, safe and reliable solutions for the treatment and disposal of domestic wastewater in the oil and gas industry. This means lower cost, reduced liability and greater environmental protection for your business and the communities where we work.
