SERVICES

Sustainability in Action

Republic Services is a leader in environmental services. Through the acquisition of US Ecology, ACV Enviro and ECOFLO, Republic Services can now offer customers comprehensive Environmental Solutions, including Radioactive Waste Services. With these legacy organizations, namely US Ecology offering more than 70 years of industry experience, we are the nation's most experienced radioactive waste company.

Highly engineered, secure, RCRA Subtitle C nationwide landfills and Licensed LLRW landfill in Richland, WA feature multiple-liner cell design and post-closure funding and our national high-capacity, high-volume facilities are rail and truck served. Our professionals provide guidance and assistance for proper characterization and sampling methods to verify waste meets acceptance criteria.

Advanced treatment technologies

Hazardous and non-hazardous waste disposal

Compliance and safety

## Accepted Waste

- NORM/TENORM from energy production, mining and other industrial processes
- Exempt byproduct, source and special nuclear materials, as well as generally exempt items and devices
- High-activity NORM sealed sources
- Class A, B and C LLRW in the Northwest and Rocky Mountain Compacts

## Radioactive Materials License

- Authorized to perform decontamination of pipes, land, buildings, and other materials
- Includes waste packaging activities at customer sites for licensed radioactive materials

## Radioactive Waste Solutions

- On-site waste acceptance criteria (WAC) compliance
- Waste characterization, packaging, and shipping
- Technical project management and onsite support
- Qualified DOT Class 7 shippers as well as transportation and logistics coordination
- Health physics and radiological engineering support

## Value of Our Radioactive Waste Solutions

- Cost-effective support by qualified professionals
- Safe and compliant management, reducing risk and environmental impact
- More than 70 years industry experience and a nationwide network of owned and operated disposal assets
