

Total Waste Solutions

A comprehensive, customized and sustainability-focused approach for your environmental solutions needs.

REPUBLIC[®]
SERVICES

Sustainability in Action

Republic Services is an industry leader, due to our acquisitions of legacy Total Waste Solutions leaders, US Ecology, ACV Enviro and ECOFLO, with decades of experience customizing Total Waste Solutions programs that enable you to centralize and standardize management of waste across multiple facilities and achieve your environmental goals. Working together, we define cost and waste volume reduction goals in a performance improvement plan and provide progress reports. Our customized tracking systems provide a consolidated view of waste data.

US Ecology has more than 70 years of industry expertise and experience. With Republic Services' extensive infrastructure, we're able to deliver premier environmental solutions. Republic Services is dedicated to implementing innovative technologies that further reduce overall waste and help you increase sustainability.

Industries We Serve

AUTOMOTIVE

MANUFACTURING

TRANSPORTATION

UTILITIES & ENERGY

OIL & GAS

Key program features include:
